PayPal Credit Information

Who can use PayPal?

Current members (renewing) and new members

What is PayPal Credit?

“PayPal Credit is an open end (revolving) credit card account that provides a reusable credit line built into your account with PayPal giving you the flexibility to pay for your purchases right away or pay over time. It’s easy to apply, easy to use and there whenever you need it. PayPal Credit is subject to credit approval and is offered by Synchrony Bank.”

How does PayPal Credit work?

A person selects to pay with **PayPal Credit**. PayPal determines if they will extend credit to them. If they do, BNI gets paid for the full membership cost immediately.

According to PayPal’s website, a person can choose how to pay off the balance when using PayPal Credit. “You can pay your balance in full by the payment due date that is on your statement to avoid paying any interest, or just make the minimum payments until you’ve paid off your purchase and pay the accumulated interest from the posting date (usually within a few days after your purchase date). PayPal will send you email reminders when your payments are due. You can also keep track of your account and view your statements online at any time. No Payments + No Interest if paid in full in 6 months when you spend \$99 or more. Interest will be charged to your account from the posting date (which is usually within a few days after the purchase date) if the purchase balance is not paid in full within 6 months.”

What if I do not currently have an account with PayPal?

“You will need an account with PayPal to apply for PayPal Credit. Once you’ve signed up for PayPal, you can begin the application for PayPal Credit. Signing up for PayPal is free.”
